

Event or Host	Date	Venue	Attendees	Event Link/Details
EuroSimE 2022	25-27.4.22	Malta, MT	Knowledge transfer and information sharing within a scientific audience	Large IPCEI poster in the exhibition area and IPCEI logo on the website page. ST presentations of technical results. Joint IFAT/Infineon presentation on IPCEI. https://www.eurosime.org/index.php/2022-malta/
ROOBOPOLI Hackathon	7 – 9. 06.23	Trento, IT	25 students organized in 5 teams made up of high-school students and PhD students of different nationalities.	ST and FBK jointly promoted and supported the International student challenge as part of the dissemination activities of the IPCEI results. During the 3 days full time event the students were required to confront each other by implementing the proposed challenges: <i>“completing the basic mission, allowing the Roobokart vehicle to move autonomously in the Roobopoli area and integrating in the ST’s microelectronic platform the environmental sensor developed in FBK”</i> . The 5 participants of the winner team received a box with 5 ST-Nucleo training kits. https://webmagazine.unitn.it/evento/dii/108441/a-tutto-gas-con-roobopoli
PRIME 2022	15 – 17.06.23	Villasimius, IT	> 180 PhDs, Senior Researchers and University Professors. The total attendees from EU Countries extra-IPCEI were 34 (Belgium, Bulgaria, Czech Rep., Greece, Hungary, Ireland, Poland, Portugal, Romania, and Spain)	ST IPCEI scouting on PhD students and doctorates activities during the international conference on PhD Research in Microelectronics and Electronics. 14 students/doctorates presented their works carried out in collaboration with ST and it was an opportunity for ST to bringing together knowledge, expertise, innovation, and growing new talent in electronics in the spirit of IPCEI. ST Keynote speech from ST's Chief Innovation Officer A.Cremonesi entitled "Welcome to the Future, Welcome to ST". https://dblp.org/db/conf/prime/prime2022.html
Technologies et composants de l'Electronique de puissance : Les enjeux autour du GaN	4.07.23	Virtual webinar	About 80-90 people connected on avg. (> 210 connections)	ST webinar organized on the work with ST partners in Nano2022 with introduction from ST and French PA (DGE) and 1 presentation from ST on “Enjeux du GaN pour ST Tours” plus presentations from 5 partners of Nano2022
ESTC 2022	13-16.9.22	Sibiu, RO	>80 participants	AT&S, IFX-D IFAT, ST IPCEI ME special session presentations on industry RDI in microelectronics and microsystems, with focus on assembly and packaging technologies towards system integration http://logicgroup.altervista.org/torino/ESTC2022/site/home/?_sm_au=iVVDDD8q6JPMq5J7clpsvK618Vf61

Maker Faire Prague	17-18.9.22	Prague, CZ	Engineers, high-school and college students	One of the biggest exhibitions in Czechia. Several educational kits presented with the demo of one of them.
ESSCIRC/ESSDERC 2022	19-22.9.22	Milan, IT	Participants mainly from European countries (academia, industry, politicians) participated.	AT&S, Bosch, GF, Infineon, IFAT, NXP-AT, Soitec, ST, Zeiss presentations from 9 IPCEI partners highly appreciated. The workshop goal was to present recent technical results to demonstrate the project progress in all 5 TFs. https://www.st.com/content/st_com/en/about/events/events.html/esscirc-essderc-2022.html
SIDO Lyon 2022	14 – 15.09.22	Lyon, FR	SMEs, large groups, start-ups, academics	IPCEI table with an IPCEI flyer and 1 demo ST/Albicchiere. The demo is the finalized product related to the smart wine dispenser that has been developed thanks to the IPCEI spillover activity linked to the DigiFed project and ST's support. https://www.st.com/content/st_com/en/sido-2022.html
AIRI Workshop in NANOINNOVATION 2022	20-23.9.22	Rome, IT	About 75 attendees of which 12 from EU Country extra - IPCEI (B, BG, CZ, RO, SRB, SLO, ES). Participants mainly from European countries (academia, industry, politicians) participated.	AT&S, FBK, IFAT, ST presentations of recent technical results from 4 IPCEI partners. Panel discussion on “Models and experiences to spill-over technologies to industry and territories” with clusters in non - IPCEI countries (SLO, SRB). https://www.airi.it/event/iniziativa-ipcei-sulla-microelettronica-soluzioni-tecnologiche-per-la-trasformazione-digitale-liot-e-lindustria-4-0/
NanoInnovation 2022 – School of Nanotechnologies	20-23.9.22	Rome, IT	About 50 Students, PhDs, Researchers international classroom	ST, FBK cochaired School of Nanotechnologies offered the opportunity to learn the fundamentals on processes, devices fabrication and characterization. https://www.nanoinnovation2022.eu/home/index.php/programme/schools-and-courses/school-on-micro-and-nano-technologies
MAKER FAIRE Rome 2022	7 – 9. 10.22	Rome, IT	More 45,000 attendees over three days	Largest European event for innovation and creativity. Students, teachers, makers, and entrepreneurs had the opportunity to see ST's latest technologies and experience ST's solutions on Artificial Intelligence, asset tracking, sensor applications, automotive developer kit, motor control, and many other topics in 18 hands-on workshops. More than 500 boards have been handed out to visitors. This was an important initiative to share our technology and innovations with various communities and encourage activities within the “IPCEI on Microelectronics” https://makerfairerome.eu/it/edizioni/2022-it/

The Semiconductor Rendez-Vous	13-14. 10.22	Lund, SE	110 people in total, from various sectors. French (DGE) and Swedish (Ministry of Enterprise and Innovation) Public Authorities, universities, students, startups, SMEs, large groups	ST, Soitec and Lynred co-organized the event with the French Minalogic and Swedish Mobile Heights clusters to talk about microelectronics value chain and present selected IPCEI technical results. https://aeneas-office.org/2022/07/15/the-semiconductor-rendez-vous/
ASDAM 2022	26.10.22	Bratislava, SLO	>50 Students, PhDs, Researchers, Professors participants from European countries to this International Conference organized by the Slovak University of Technology in Bratislava	IFX-D, IFAT, ST participation to the IPCEI focus session with selected cases from industry results. http://uef.fei.stuba.sk/asdam/index.php
SIDO Paris 2022	8 – 9. 11.22	Paris, FR	SMEs, large groups, start-ups, academics	IPCEI table with an IPCEI flyer, several educational kits presented with the demo of two of them https://www.st.com/content/st_com/en/sido-2022.html
ST Neapolis Innovation Technology Day 2022	23.11.22	Naples, IT	More than 170 participants from companies, universities, research centers and associations	ST open innovation event dedicated to networking, seminars and exhibition areas to connect Start-ups and SMEs with university students, researchers, and professors. Presentation of demos and exchange ideas within the frame of the “IPCEI on Microelectronics” initiative to support the innovation ecosystem with new demos on Smart Mobility, Power & Energy, and IoT. https://www.pepite.info/blog/neapolis-innovation-technology-day-2022/
EF ECS 2022 Conference	24 – 25.11.22	Amsterdam, NL	621 visitors, 71 exhibitors, 29 nationalities, 22 sessions	Spillover action of the IPCEI project to focus on achieved technical results and impact IPCEI-booth in the exhibition area during the whole conference with 3 wall-papers representing the 5 TF activities and results for technical integrated projects and spillover actions of all the partners Video prepared by the Facilitation Group to show the technical progress by each IPCEI funding country, with applications, Fabs and technologies of different partners (including ST video on Crolles and Agrate Fabs), messages from politicians, and spillover examples https://efecs.eu/
